The Federal Returning Officer must be notified immediately of the registration in the voters’ register through transmission of the duplicate of the application as per Annex 2 or a copy of the original application as per Annex 2, on which the registration shall be recorded. If the Federal Returning Officer receives notification from more than one local authority of the registration of the same applicant in the voters’ register, he or she shall immediately contact any local authority whose notification of registration in the voters’ register is received after the first notification to inform it of the registration of the person eligible to vote in the voters’ register of the first notifying municipality. Any local authority receiving such information from the Federal Returning Officer must delete the person concerned from the voters’ register and inform him or her thereof.

(6) If a person eligible to vote as defined by Section 12 subsection (2), first sentence, of the Federal Elections Act returns to the electoral area and registers there in respect of a domicile after the qualifying date as specified by Section 16 subsection (1) but before the beginning of the period in which the voters’ register as defined by Section 17 subsection (1), first sentence, of the Federal Elections Act may be inspected, he or she shall be registered in the voters’ register of the new place of residence only after filing an application as per Annex 1, thus providing evidence to the municipal authority of his or her eligibility to vote by affirmation in lieu of an oath and declaring that he or she has not submitted any other application for entry in the voters’ register. The person eligible to vote is to be advised thereof at the time of application. The local authority of the municipality must immediately inform the Federal Returning Officer by submitting the duplicate of the application as per Annex 1 or a copy of the original application as per Annex 1 on which the registration shall be recorded when such person has been registered in the voters’ register. Subsection (5), fifth and sixth sentences, shall apply as appropriate.

7. a note as to where persons entitled to vote may obtain information on barrier-free polling stations and on aids,
8. instructions on how to apply for a polling card and how to dispatch postal ballot documents. The instructions must at least contain directions on

   c) the fact that the polling card may not be applied for by anyone other than the person eligible to vote unless entitlement to apply is certified by submission of a written authority (Section 27 subsection (3)).

Persons eligible to vote that are registered in the voters’ register pursuant to Section 16 subsections (2) to (5) on application and, more specifically, are registered after the notifications pursuant to the first sentence have been sent must be notified of their registration immediately after such registration.

(2) An application form for the issue of a polling card and postal ballot documents in accordance with the specimen at Annex 4 shall be printed on the reverse of the notification specified in subsection (1).

(4) If a Land Returning Officer finds that as a result of natural disasters or by force majeure the timely notification pursuant to subsection (1) is disrupted, he shall decide that the notification may subsequently be carried out in the area concerned. If there is cause for concern that the notification pursuant to subsection (1) cannot be effected until the sixth day before the election, he shall decide that the persons eligible to vote shall be notified of the details specified in subsection (1), second sentence, numbers 2, 3, 5 to 7 in another appropriate way. To this end, the Land Returning Officer may make supplementary adjustments in line with special circumstances in individual cases. He shall publicize in an appropriate way the reasons for the disruption, the area concerned, the adjustments made by him in individual cases and the manner of notification.

(4) The local authority of the municipality must serve the objector and the registered person concerned with its decision not later than the tenth day before the election and must advise them of the legal remedies available. When the local authority upholds an objection whose purpose is registration, it shall indicate this, after amending the voters’ register, by sending the person eligible to vote a voter’s notice. In the cases specified in Section 18 subsections (5) and (6), it shall inform the competent authorities of the registration immediately.

(5) An appeal against the decision of the local authority may be lodged within two days of its service to the Constituency Returning Officer. The appeal must be lodged with the local authority in writing or by means of a minuted statement. The local authority shall submit the appeal with the relevant files to the Constituency Returning Officer immediately. The decision on the appeal shall be notified to the persons concerned and to the local authority. It shall be final, unless otherwise decided in electoral scrutiny proceedings.

Section 23

Section 16 subsections (2) to (5), Section 18 subsection (5), sixth sentence, and Section 18 subsection (6), forth sentence, as well as Section 30 shall remain unaffected.

(2) If the voters’ register is evidently incorrect or incomplete, the local authority of the municipality may also rectify the fault ex officio. The deadline stipulated for service of the decision (Section 22 subsection (4), first sentence) and for decision on the appeal (Section 22 subsection (5), forth sentence) shall only apply if the faults which the local authority may rectify ex officio become evident prior to the twelfth day before the election.

(3) All amendments made after the beginning of the inspection period shall be explained in the "Notes" column, showing the date of amendment and bearing the signature of the executive official; in an automated process, the signature shall be replaced by a reference to the responsible official.

(4) After closure of the voters’ register, no further amendments may be effected except those provided for in subsection (2) and in Section 53 subsection (2).

(1) A person eligible to vote registered in the voters’ register shall receive a polling card on application.

(2) A person eligible to vote not registered in the voters’ register shall receive a polling card on application
1. if he or she certifies that, through no fault of his or her own, he or she has failed to meet the deadline for application under Section 18 subsection (1) or the deadline for objections under Section 22 subsection (1),
2. if his or her right to participate in the election did not begin until after the periods stipulated in Sections 18 subsection (1) or 22 subsection (1),
3. if his or her right to vote was ascertained by means of the objection proceeding and the ascertainment thereof only came to the attention of the local authority after the closure of the voters’ register.
Section 26
Competent Authority, Form of the Polling Card

The polling card, in accordance with the specimen at Annex 9, shall be issued by the local authority of the municipality in whose voters’ register the person eligible to vote is registered or should have been registered.

Section 27
Applications for Polling Cards

(1) Applications for a polling card may be submitted to the local authority of the municipality in writing or personally. Telegram, telex, fax and e-mail messages as well as any other electronic transmission that can be documented shall also be valid forms of written communication. Application by telephone shall not be permissible. A person with disabilities who is eligible to vote may avail himself or herself of another person's assistance to submit the application; Section 57 shall apply as appropriate.

(2) The applicant must state the surname, the forenames, the date of birth and his or her place of residence (street, house number, postal code, town).

(3) Anyone applying on behalf of another person must certify that he or she is authorized to do so by submitting a written authority.

(4) Polling cards may be applied for until 6 p.m. on the second day before the election. In the cases specified in Section 25 subsection (2), polling cards may be issued until 3 p.m. on election day. The same shall apply if the certified onset of sudden illness makes it impossible or unreasonably difficult for someone to go to the polling station; in this case, before issuing the polling card, the local authority must inform the Electoral Officer responsible for the elector's polling district, who must proceed in accordance with Section 53 subsection (2).

(5) For persons eligible to vote who, pursuant to Section 16 subsection (2), are registered in the voters’ register by sole reason of an application, such an application shall also be considered an application for a polling card unless the elector wishes to vote before the Electoral Board of his or her own polling district.
(6) Written applications which are received too late must be left unprocessed, packed with the accompanying envelopes and put into temporary storage.

Section 28
Issue of Polling Cards

(1) Polling cards must not be issued prior to the approval of nominations by the Land and Constituency Electoral Committees in accordance with Sections 26 and 28 of the Federal Elections Act.

(2) The polling card must be signed personally by the official in charge of issuing it and must bear the official seal. The official seal may be embossed. If the polling card is produced by means of automated facilities, there may be no signature, in derogation of sentence 1; instead, the name of the official in charge may be embossed.

(3) The following shall be appended to the polling card:
1. an official ballot paper for the constituency in accordance with the specimen at Annex 26,
2. an official ballot paper envelope in accordance with the specimen at Annex 10,
3. an official return envelope in accordance with the specimen at Annex 11, bearing the full address to which the ballot letter is to be sent, (recipient of the postal ballot letter in accordance with Section 66 subsection (2)), as well as the designation of the local authority of the municipality which has issued the polling card (issuing office) and the polling card number or polling district entered beforehand by the issuing office, and
4. an information leaflet for postal voters in accordance with the specimen at Annex 12. The first sentence shall not apply in the cases specified in Section 29 subsection (1).

(4) The polling card and postal ballot documents shall be sent or officially delivered to the place of residence of the person eligible to vote provided that the application does not contain another address or provides for the documents to be collected. If dispatch to another address has been applied for in a form pursuant to Section 27 subsection (1), second sentence, the sending of the postal ballot documents shall include the dispatch of
a notice to the place of residence. Outgoing mail shall be stamped by the local authority.
The local authority of the municipality shall send the polling card and postal ballot
documents to the person eligible to vote by air mail if the application reveals that he or
she wishes to vote from an area outside Europe or if this otherwise appears necessary.

(5) If the person eligible to vote collects the polling card and postal ballot documents
personally from the local authority of the municipality, he or she should be given the
opportunity to cast his or her postal vote there and then. Care must be taken to ensure that
the voter can mark the ballot paper and place it in the ballot paper envelope without being
observed. The polling card and postal ballot documents may only be handed over to
someone other than the person eligible to vote in person if the authorization to take receipt
of the documents is certified by the submission of a written authority. Section 27
subsection (1), forth sentence, shall apply as appropriate. The authority may be used only
if the person authorized represents not more than four persons entitled to vote; this must
be confirmed in writing by the person authorized before he or she takes receipt of the
documents. The person authorized must identify himself or herself upon request.

(6) The local authority shall maintain a polling card register in which the cases specified
in Section 25 subsection (1) and in subsection (2) are recorded separately. The register
shall be kept as a list or as a collection of the carbon copies of the polling cards. The
number under which the polling card is recorded in the polling card register as well as the
number under which the person eligible to vote is registered in the voters’ register or the
name of the envisaged polling district shall be entered on the polling card. Where voters
are not registered in the voters’ register, a note shall be made on the polling card,
confirming that the card has been issued under Section 25 subsection (2) and stating the
polling district to which the person eligible to vote will be assigned. If further polling cards
are issued after closure of the voters’ register, a special register shall be kept for such
cards in accordance with the first to third sentences above.

(7) The local authority of the municipality shall immediately notify the Federal Returning
Officer of any polling card issued pursuant to Section 25 subsection (2) to a person eligible
to vote specified in Section 12 subsection (2), first sentence, of the Federal Elections Act.
Section 18 subsection (5), fifth and sixth sentences, shall apply as appropriate.
(8) If a person eligible to vote who has already received a polling card is deleted from the voters' register, the polling card must be declared invalid. The local authority shall keep a register of such occurrences, recording in it the name of the person eligible to vote and the number of the invalidated polling card; it must amend the polling card register. The local authority shall inform the Constituency Returning Officer, who shall advise all Electoral Boards in the constituency of the invalidity of the polling card. In the cases specified in Section 39 subsection (5) of the Federal Elections Act, a suitable entry shall be made in the polling card register and in the register of invalidated polling cards, stating that the vote of a person eligible to vote who has already participated in the postal ballot is not invalid.

(9) After closure of the voters' register, the local authority of the municipality, if the authority itself, another local authority or the district administration is not responsible for administering the postal ballot, shall send the Constituency Returning Officer, by the quickest means available, the register specified in subsection (8), second sentence, and addenda to that register, or a notice that no polling cards have been invalidated, in good enough time for them to be received on the morning of election day at the latest. If another local authority has been charged pursuant to Section 7 subsection (3) to administer the postal ballot, or if the district administration bears that responsibility, the local authority must send the register and the addenda or a notice as described in the first sentence to the administering authority.

(10) Lost polling cards shall not be replaced. If a person eligible to vote gives a substantiated affirmation that he or she did not receive the polling card applied for, a new polling card may be issued to such a person until 12 noon on the day before the election; subsection (8), first to third sentences, and subsection (9) shall apply as appropriate.
Section 29  
Issue of Polling Cards to Particular Groups of Persons

(1) The local authority of the municipality shall, not later than the eighth day before the election, contact the managements of
1. the establishments for which a special polling district has been formed (Section 13),
2. smaller hospitals, smaller senior citizens’ or nursing homes, monasteries, convents and socio-therapeutic and penal institutions where provision has been made for their occupants who are eligible to do so to cast their votes before a mobile Electoral Board (Sections 8 and 62 to 64),
requesting a register of the persons eligible to vote from the municipality who live in the establishment or are employed there and who wish to vote in the establishment on election day. The local authority shall issue polling cards without postal ballot documents for such persons eligible to vote and send them directly to these persons.

(2) The local authority shall instruct the managements of the establishments, not later than the thirteenth day before the election,
1. to inform the persons eligible to vote who live in the establishment or are employed there and who are listed in the voters’ register of other municipalities in the same constituency that they may only vote in the establishment if they have obtained a polling card from the local authority in whose voters’ register they are registered,
2. to inform the persons eligible to vote who live in the establishment or are employed there and who are listed in the voters’ register of municipalities in other constituencies that they may only exercise their right to vote by postal ballot in their home constituency and for this purpose must obtain a polling card with postal ballot documents from the local authority in whose voters’ register they are registered.

(3) The local authority of the municipality shall, not later than the thirteenth day before the election, request the military units stationed in the territory of the municipality to inform the enfranchised service personnel in accordance with subsection (2) number 2.
Section 30

Whenever a person eligible to vote receives a polling card, the word “Wahlschein” (polling card) or the letter "W" shall be entered in the column for notations on voting in the voters’ register.

Section 31
Objections to the Withholding of Polling Cards and Appeal

If the issue of a polling card is refused, an objection may be lodged. Section 22 subsections (2), (4) and (5) shall apply as appropriate. The deadline stipulated for the service of the decision (Section 22 subsection (4), first sentence) and for the decision on an appeal (Section 22 subsection (5), forth sentence) shall only apply if the objection has been lodged prior to the twelfth day before the election.

Chapter IV
Nominations, Ballot Papers

Section 32
Call for Submission of Nominations

Once the election day has been designated, the District and Land Returning Officers shall, by means of public announcement, call for the earliest possible submission of the nominations and draw attention to the conditions for the submission of nominations laid down in Section 18 subsection (2) of the Federal Elections Act. They shall state where and by what time the notices of participation specified in Section 18 subsection (2) of the Federal Elections Act and the nominations must be submitted and shall draw attention to the provisions governing the content and form of the nominations, to the number of signatures and certificates to be provided in particular cases and to the declarations, minuted records and assurances to be submitted with the nominations (Sections 20, 21 and 27 of the Federal Elections Act).
(1) The Federal Returning Officer shall record the date of receipt on every notice of participation and immediately examine whether it meets the requirements of the Federal Elections Act. Upon discovery of any fault, he or she shall inform the executive committee of the party forthwith and ask it rectify to any rectifiable faults in good time; in so doing, he or she should point out that, as laid down in Section 18 subsection (3) of the Federal Elections Act,

1. after expiration of the stipulated period of notice, faults may be rectified only in notices which are valid per se,
2. after the decision regarding recognition as a political party, any rectifying of faults is inadmissible,
3. the executive committee may appeal to the Federal Electoral Committee against directives issued by the Federal Returning Officer.

(2) The Federal Returning Officer shall invite the associations which have given notice of their participation in the election to the meeting at which the decision is to be taken on their recognition as political parties for the election. In the invitation he or she shall refer to the fact that decision will be announced at the meeting and to the legal consequences. He or she shall submit the notices of participation to the Federal Electoral Committee and report on the result of the preliminary examination. Prior to a decision being taken, the persons concerned who are present shall be given the opportunity to speak.

(3) After the recognition process specified in Section 18 subsection (4) of the Federal Elections Act has been completed, the Federal Returning Officer shall announce the decision of the Federal Electoral Committee at the meeting, summarizing the reasons. If a party or association is prevented from submitting nominations on account of the decision taken in the recognition process, he or she shall advise them in the announcement that there is the legal remedy of lodging a complaint in accordance with Section 18 subsection (4a) of the Federal Elections Act, of the time limit applying and the legal consequences of a complaint. The decision shall be made public by the Federal Returning Officer.
(4) The record of the meeting (Section 5 subsection (7)) must be drawn up immediately. The main grounds must be presented in the record. The Federal Returning Officer shall immediately, but not later than on the day following the meeting of the Federal Electoral Committee and by the quickest means available, send to the parties or associations prevented from submitting nominations on account of the decision taken in the recognition process a copy of that part of the record which relates to them, including the notices required pursuant to Subsection (3), second sentence.

Section 34

(1) The constituency nomination is to be submitted in accordance with the specimen at Annex 13. It must contain

1. the surname, the forenames, the occupation or status, the date of birth, the place of birth and the address (main residence) of the candidate,
2. the name of the submitting party and the shortened form of its name if it uses such a form or, in the case of other constituency nominations (Section 20 subsection (3) of the Federal Elections Act), their identifying word.

It shall also contain the names and addresses of the spokesperson and the deputy spokesperson.

(2) Constituency nominations by parties must bear the personal handwritten signatures of at least three members of the executive committee of the Land branch, including that of the chairperson or his or her deputy. If a party has no Land branch or no unified Land organization in the Land in question, the constituency nominations must be signed in accordance with the first sentence by the executive committees of the next lower regional branches in whose area the constituency is situated. The signatures of the submitting executive committee shall suffice if it certifies within the period stipulated for submissions that the Land Returning Officer has received a written authority in accordance with the first sentence above from the other participating executive committees.

(3) For other constituency nominations, three signatories of the nomination must sign the constituency nomination themselves (Annex 13). Subsection (4) numbers 3 and 4 shall apply as appropriate.
If a constituency nomination must be signed by at least two hundred persons in the constituency who are eligible to vote, such signatures shall be submitted on official forms as per Annex 14, the following provisions being observed:

1. The forms shall be supplied free of charge by the Constituency Returning Officer on request, they may be provided also as a master copy or electronically. The request must contain the surname, forenames and address (main residence) of the prospective candidate. If, together with the request, evidence is furnished that a blocking note relating to the candidate has been entered in the population register in accordance with Section 51 subsection (1) of the Federal Act on Registration, an address where the candidate may be contacted shall be used instead of his or her address (main residence); indicating a post office box shall not be sufficient. As the designation of the nominating body which intends to submit the constituency nomination, if that body is a political party, its name, and the shortened form of its name if it uses such a form, must also be entered; other constituency nominations must bear their identifying word. In addition, parties must confirm that their candidate has been selected at an assembly of party members or at a special or general assembly of delegates held in accordance with Section 21 of the Federal Elections Act. The Constituency Returning Officer must record the information specified in the second to forth sentences above at the heads of the forms.

2. The persons eligible to vote who sponsor a constituency nomination must affix their personal handwritten signatures to the declaration on the form; beside the signature, the surname, forenames, date of birth and address (main residence) of the signatory as well as the date of signature are to be entered. 3. For each signatory, certification by the local authority of the municipality in whose voters’ register he or she is registered shall be entered on the form or drawn up separately to the effect that at the time of signature he or she is eligible to vote in the constituency in question. Separate certificates of enfranchisement are to be appended to the supporting signatures by the nominating body on submission of the constituency nomination. Anyone who applies for a certificate of eligibility to vote on
another person’s behalf must certify that the person concerned sponsors the nomination.

4. A person eligible to vote may sign only one constituency nomination; if anyone signs more than one constituency nomination, their signature shall be invalid on all other nominations.

5. Constituency nominations from parties may only be signed after selection of the candidate by an assembly of members or delegates. Previous signatures shall be invalid.

(5) The constituency nomination must be accompanied by

1. the declaration by the nominated candidate, in accordance with the specimen at Annex 15, that he or she shall accept election and has not given his or her consent to nomination as a candidate in any other constituency,

2. certification by the competent local authority of the municipality, in accordance with the specimen at Annex 16, that the nominated candidate is eligible for political office,

   a) a copy of the record documenting the decision taken by the assembly of party members or delegates at which the candidate was elected, as well as, in the event of an objection pursuant to Section 21 subsection (4) of the Federal Elections Act, also a copy of the record of the repeated vote, with the affirmation in lieu of an oath prescribed in Section 21 subsection (6), second sentence, of the Federal Elections Act; the record should be drawn up in accordance with the specimen at Annex 17 and the affirmation in lieu of an oath given in accordance with the specimen at Annex 18;
   b) an affirmation in lieu of an oath of the proposed candidate towards the Constituency Returning Officer in accordance with the specimen at Annex 15, stating that he or she is not a member of any party other than the one submitting the nomination; for receiving the affirmation in lieu of an oath, Section 21 subsection (6), third sentence, of the Federal Elections Act shall apply accordingly,

4. the requisite number of supporting signatures, together with certificates of eligibility to vote for the signatories (subsection (4) numbers 2 and 3) if the constituency
nomination must be signed by at least two hundred persons in the constituency who are eligible to vote.

(6) The certificate of eligibility to vote (subsection (4) number 3) and the certificate of eligibility for political office (subsection (5) number 2) shall be issued free of charge. The local authority may only issue the certificate of eligibility to vote to each person eligible to vote once for a constituency nomination; it must not keep any record showing that the certificate issued relates to a particular nomination.

(7) For candidates who have no domicile in the Federal Republic of Germany and are not otherwise habitually resident there, the Federal Minister of the Interior shall issue the certificate of eligibility for political office. It shall be applied for at the diplomatic or full-time consular mission of the Federal Republic of Germany responsible for the candidate's place of residence or directly, the necessary certificates being submitted.

Section 35

(1) The Constituency Returning Officer shall record on each constituency nomination the date and, if it is received on the last day of the stipulated submission period, the time of receipt and shall immediately forward one copy each to the Land Returning Officer and the Federal Returning Officer. The Constituency Returning Officer shall immediately examine whether the constituency nominations received are complete and in compliance with the requirements of the Federal Elections Act and these Regulations.

(2) If the Constituency Returning Officer discovers that a candidate nominated in one constituency has also been nominated in another, he shall draw the attention of the Constituency Returning Officer of the other constituency to the double candidature.

(3) If an appeal is lodged with the Constituency Electoral Committee pursuant to Section 25 subsection (4) of the Federal Elections Act under the procedure for rectifying faults, the Constituency Electoral Committee must decide immediately on the directive issued by the
Constituency Returning Officer. The spokesperson for the constituency nomination in question must be given the opportunity to speak.

**Section 36**  
**Approval of Constituency Nominations**

(1) The Constituency Returning Officer shall invite the spokespersons for the constituency nominations to the meeting at which the decision is to be taken on the approval of the constituency nominations.

(2) The Constituency Returning Officer shall submit all constituency nominations received to the Constituency Electoral Committee and report to it on the result of the preliminary examination.

(3) The Constituency Electoral Committee shall examine the constituency nominations received and decide to approve or reject them. Prior to a decision being taken, the spokesperson for the nomination concerned shall, if present, be given the opportunity to speak.

(4) The Constituency Electoral Committee shall set forth the approved constituency nominations, stating the details required under Section 34 subsection (1), second sentence. If, in any other constituency nomination (Section 20 subsection (3) of the Federal Elections Act), the identifying word is omitted or conveys the impression that the constituency nomination comes from a political party or is liable to cause confusion with a previously submitted constituency nomination, the constituency nomination shall be given the name of the candidate as its identifying word. If the names of several parties or their shortened forms give rise to confusion, the Constituency Electoral Committee shall add a distinguishing designation to one or several of the nominations; where the Land Electoral Committee has established a means of distinction (Section 41 subsection (1)), such means shall be adopted.

(5) As soon as the decision has been taken by the Constituency Electoral Committee, the Constituency Returning Officer shall announce it at the meeting, summarizing the reasons and indicating the legal remedies that can be used.

Section 68
Counting of Voters

(1) Prior to the opening of the ballot box, all unused ballot papers shall be removed from the polling table. First, the number of voting endorsements in the voters' register and the number of polling cards collected shall be established. Then the ballot papers shall be taken from the ballot box, unfolded and counted. If no consensus is established even after repeated counting, this shall be minuted and, if possible, explained in the election record.

(2) If it is established in accordance with subsection (1), second sentence, that fewer than 50 voters have cast their votes, the Constituency Returning Officer shall require the Electoral Board of the relevant polling district (delivering Electoral Board) to hand over without delay the locked ballot box, the voters' register, the certificate of closure and the polling cards collected to the Electoral Board of another, specified polling district of the same constituency (receiving Electoral Board) for the purpose of determining and establishing the election result jointly. A notice stating where the election result is being determined and established jointly must be affixed to the polling station of the delivering Electoral Board. The objects to be handed over pursuant to the first sentence shall be transported in the presence of the electoral officer and the protocolist, another member of the Electoral Board and, where possible, other people who are present in accordance with Section 54. The receiving Electoral Board shall act pursuant to Section 61 subsection (6), seventh and eighth sentence. The handover of the ballot box and the electoral documents must be recorded in the election records of the delivering and the receiving Electoral Boards.
Section 69
Counting of Votes

(1) Once the ballot papers, the voting endorsements and the polling cards have been counted, two or more Board members shall, under the supervision of the Electoral Officer, form the following piles of ballot papers, which they shall keep under their charge:

1. piles sorted by Land list with the ballot papers on which the first and second votes have indubitably been cast for the candidate and the Land list of the same party,
2. one pile with the ballot papers on which the first and second votes have indubitably been cast for candidates and Land lists of different nominating bodies, as well as the ballot papers on which only the first or second vote is indubitably valid and the other vote has not been cast,
3. one pile with the unmarked ballot papers.

Ballot papers which give cause for doubt shall be set aside and placed in the custody of a Board member designated for this purpose by the Electoral Officer.

(2) The Board members in charge of the ballot papers sorted by Land (subsection (1), first sentence, number 1) shall hand over the piles one by one, some to the Electoral Officer and some to his or her deputy. The latter shall examine whether the ballot papers of each pile all bear the same marks and announce aloud the candidate for whom and the Land list for which the votes in each pile have been cast. If a ballot paper gives the Electoral Officer or his or her deputy cause for doubt, they shall add it to the ballot papers set aside pursuant to subsection (1), second sentence.

(3) The Electoral Officer shall then examine the unmarked ballot papers (subsection (1), first sentence, number 3) which shall be given to him or her for this purpose by the Board member who has custody of them. The Electoral Officer shall announce that in these cases both votes are invalid.

(4) Thereafter, successive groups of two Board members designated by the Electoral Officer shall, under mutual scrutiny, each count one of the piles of ballot papers examined by the Electoral Officer and his or her deputy in accordance with subsections (2) and (3) and establish the number of valid votes cast for the nominations as well as the number of invalid votes. The numbers shall be entered in the election record as subtotals.
(5) The Board member in charge of the pile of ballot papers formed in accordance with subsection (1), first sentence, number 2 shall hand over the pile to the Electoral Officer. The Electoral Officer shall first sort the ballot papers into new piles by the second votes for the Land lists and for each ballot paper announce aloud the Land list for which the second vote has been cast. For ballot papers on which only the first vote has been cast, he or she shall announce that the unused second vote is invalid. If a ballot paper gives the Electoral Officer cause for doubt, he or she shall add it to the ballot papers set aside pursuant to subsection (1), second sentence. The piles formed by the Electoral Officer shall then be counted in accordance with subsection (4). Thereafter, the Electoral Officer shall rearrange the ballot papers by the first votes, and the count shall proceed in accordance with the second to fifth sentences. The various numbers of votes shall be entered as subtotals in the election record.

(6) Finally, the Electoral Board shall decide on the validity of the votes cast on the ballot papers which have been set aside. The Electoral Officer shall announce the decision orally and in the case of valid votes say for which candidate or Land list the vote has been cast. He or she shall record on the rear of each ballot paper whether both votes, only the first vote or only the second vote has been declared valid or invalid and mark the ballot papers with serial numbers. The numbers of votes cast shall be entered as subtotals in the election record.

(7) The number of invalid votes cast and of votes cast for the nominations, as ascertained pursuant to subsections (4) to (6) above, shall be added up by the clerk and entered in the election record. Two Board members designated by the Electoral Officer shall verify the calculation. If a member of the Electoral Board requests a recount of the votes prior to the signature of the election record, the procedure stipulated in subsections (1) to (6) above shall be repeated. The reasons for the recount shall be minuted in the election record.

(8) The Board members designated by the Electoral Officer shall collect
